

IMAGINE

THE HONORS COLLEGE AT UNCW

attracts and retains academically talented students, offering a powerful learning experience by encouraging curiosity, critical thinking and independent work skills, and by developing a community of honors scholars on campus.

HONORS —COLLEGE— IN DEPTH

Why Honors?

- Context: Interdisciplinary, Innovative Courses
- Conversation: High access, high touch environment
- Community: Small Classes, cohort feel
- Connection: Increase the surface area of education

“Best of
Both Worlds”

UNIVERSITY of NORTH CAROLINA WILMINGTON

BEYOND THE CLASSROOM

A hallmark of UNCW is its commitment to mentoring undergraduates in research and scholarly activity. The Honors Scholars College supports this commitment 100%. Honors houses the Center for the Support of Undergraduate Research (CSURF), as well as coordinates the departmental honors projects.

RESEARCH

The Honors College offers free tickets to Honors students for cultural events around the Wilmington/Cape Fear Region.

Each year we secure a limited number of tickets to symphonies, lectures, concerts, and passes to area cultural treasures like the Cameron Art Museum, Airlie Gardens, the North Carolina Aquarium at Fort Fisher, and more!

CULTURAL ACTIVITIES

All First-Year honors student live together in Keystone Hall.

This living-learning community encourages engaged interaction and supports academic success.

Honors mentors help facilitate success. Getting connected with volunteering and internships also strengthens connections in the Honors community.

INVOLVEMENT

STUDY ABROAD

UNCW Senior to Cross the Pond for Fulbright Funded Graduate Studies

THURSDAY, MARCH 28, 2019

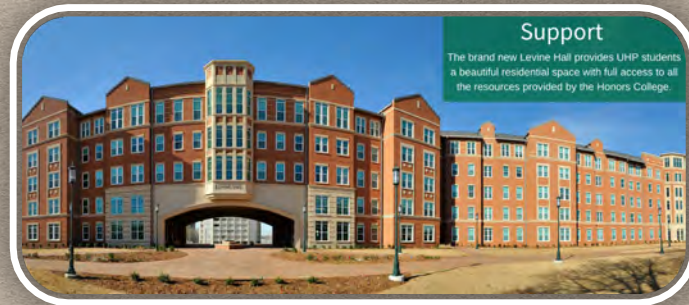

Amanda Ceroli '19 is "extremely happy" to have an answer for when she's asked what she's going to do after she graduates in May. She'll be attending graduate school abroad on behalf of a Fulbright Research Grant.

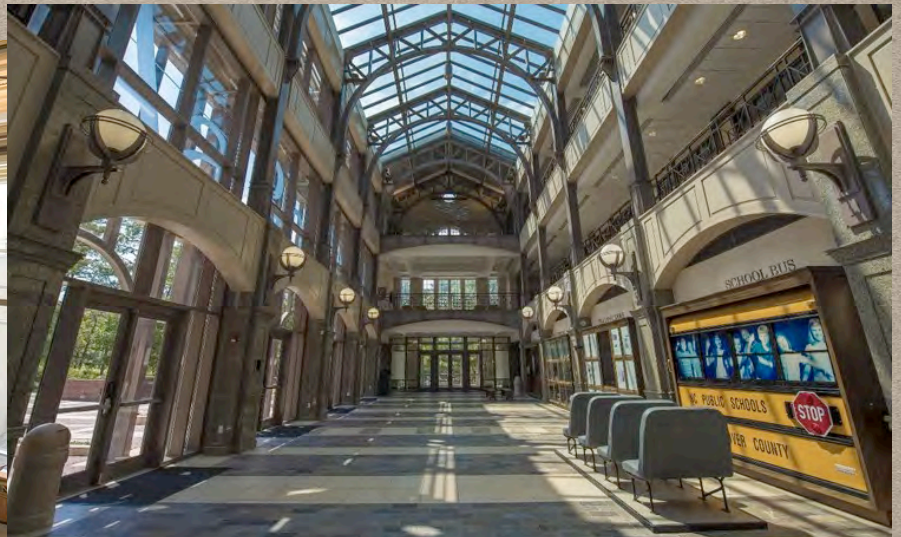

The physics major will begin her work on a master's in oceanography with a concentration in physical oceanography at the University of Southampton in September. But first, she will travel to Costa Rica with the Honors College and then on to Boulder, Colorado to present her senior research at the American Meteorological Society's Polar Science Conference.

Ceroli attended UNCW for its highly acclaimed marine science programs and
